Those who are school systems, namely, non and irregular familiar with the topography of British Col- attendance." umbia will understand the difficulties and labor to be encountered by nearly three thousand miles of travel in such a country. The progress which has been made in school matters during the year, is very satisfactory indeed. Returns show that the number of children attending school this year is 1,028, or nearly double what it was last year. The total number of children of school-going age in the Province is estimated at about 2,000, which shows that only a fraction over onehalf the children in the country as yet avail themselves of the advantages of a free education. The report, however, says that about 400 of those who do not attend the public schools, receive instruction in private schools so that there are about 600 children not yet gathered into any schools, either public or private. Last year there were only 16 teachers in the employ of the department, while this year there are 28, or nearly double. Of these, only 16 are qualified teachers under the Act, but that is just double as many as there were last year, and shows a satisfactory rate of progress in this particular during the year. The total amount paid for teachers' salaries during the year was \$19,967 50; the highest salary paid was \$100, the lowest \$40 per month. Last year there were only eight school houses returned as public property, now there are twenty-two, being an increase of fourteen-twelve of them are new buildings. These cost the Government \$8,522 87, or an average of about \$700 each. During THE ADVERTISER BEGS to return thanks the year nearly all the public schools have to the public for the liberal patronage accort to him during the past number of years, and respectively all the public schools have to him during the past number of years, and respectively schools have to he above. been supplied with the authorized series of text books issued from the Education Depart-Constant Supply of Pashionable Goods direct from the Leading European Markets and which will be offered at prices which will ensure the commendation of customers. imparted, and the sooner all the public schools are supplied with similar books the better. The total amount of expenditure during the year for all purposes, was \$36,. G. D. A. GOULTER 763 77. The cost per capita of educating the children attending the public schools ranges in the different districts from \$12 49 to \$62, 07 per annum-Nanaimo being the lowest and Sooke the highest. The average for the DRUGGISTS' Province is \$34 66 for each pupil in attendance. With reference to this matter, the Superintendent says, "Although this table part of exhibits a heavy cost per pupil, yet it must be borne in mind that as the school-going population increases, this average will decrease; because, were the attendance in many of the schools doubled, or even quadrupled, the annual expense would be nothing more than at present." The average salaries paid to teachers is \$57 per month, which the Superintendent considers too small a sum to secure the services of competent male to secure the services of competent male A variety of Other Articles.

teachers, and we agree with him. He says, Some Christmess Caskets, &c., at English prices " An energetic, ambitious man will not be likely to fritter away his time in British Columbia, for several years to come, on \$60 per month, much less \$50," and in view of obtaining the services of a better class of teachers, or as an inducement for those already in the work to improve, he recommends that the salaries of those at present getting \$50 per month, be increased at least 20 per cent. On the subject of setting spart a portion of the public domain as an endowment for the publie schools of the Province, the Superintendent says : " It appears very necessary that a certain portion of the public domain should be set apart for educational purposes as soon as sarveyed. I had the honor of calling attention to this important subject in my last report; and since then the desirability of something being done in this direction is much more apparent. Settlers are locating is all the available agricultural districts, and schools must be provided for them whenever a sufficient number of children within a given area can be found. This will call for constantly increasing school grants, which, without some extraneous aid, will bear heavily upon the public revenue. It is a question worthy of serious consideration, as to wheth-. sez a large portion of the proceeds of land & CIENTIFIC LECTURES sales should rot be devoted to public inetruction; not in aid of any particular locality, but for the benefit of the Province at large." The following observations on the subject of compulsory education, we quite agree with. The Government, at a heavy expense to the public treasury, have made ample provision for the education of every child in the country, free of charge, and unless parents avail themselves of the opportunity thus afforded of educating their chil dren, the public money will have been squandered. Therefore, in making attendance

compulsory, the Government at once protects

the interests of the children from the neglect

of their parents, and the public revenue from

being frittered away without obtaining the

object for which it was set apart. On this

we are only following the example of Germany, Switzerland, Sweden, Denmark, and, more recently, Great Britain, Brazil, Peru, Ontario, and one or two of the Eastern States. Nearly every other kingdom, state and province, where liberal school systems prevail,

HOLLOWAY'S OINTMENT

OLD SORES AND OLD SKIN DISEASES. The seeds of these disorders are effecually expelled by this penetrating Ungaent, not only from the superficial parts, but from the internal tissues likewise. Any case, even if of 20 years standing, speedily yields to its influence.

BRONCHITIS, DIPTHERIA, SORE THROAT. ASTHMA &C.

Rheumatism, and erysipelas may be overcome by frequently fomenting the affected parts in warm water, drying, and immediately applying this soothing Ointment. The same procedure applies equally well for curing sore throat, diptherria bronchitis, asthma, tightness of the chest, and pain in the side, which instant treats ment alone prevents degenerating the more serious maladies. The Ointment has the same derivative powers over chest complaints as a blister possesses, without causing pain or debility.

HEMORRHOIDS-PILES, AND VBSCESSES. Thousands suffer severely for years from these annoying complaints through false delicacy. Let such purchase a pot of Holloway's Ointment, read the directions which accompany it, act upon them to the letter, and they will, without difficulty, succeed in obliterating every vestige of these harrassing ailments.

ACCIDENTAL INJURIES, INFANTILE AILMENTS In ents, bruises, sprains, burns, and scalds, it will be found cooling, sedative and healing. The part effected should be fomented in warm water, dried gently, and the Ointment should be instantly applied. This purifying Ointment may be safely used in all eruptions, chafings and other cutaneous affections to which children are liable.

BAD LEGS, BAD BREASTS, OLD SORES AND ULCERS.

By rubbing the Ointment round the affected parts, it penetrates to the tissues beneath, and exercises a wonderful power on all the blood flowing to, and returning from, the diseased part. The inflammation diminishes, the pain becomes less intolerable, the matter thicker, and a cure is soon effected. In all long standing cases, Hollaway's Pills will thoroughly expel all depraved humors from the body.

GLANDULAR SWELLINGS. STIFF JOINTS. This class of complaint vields without water. It acts by stimulating the absorbents to increased activity, restraining inceration, and promoting a free and

GOUT, RHEUMATISM AND PARALYSIS. Gout and Rheumatism arise from insure is certain.
